

GS-RF100 **WIRELESS CHARGING** **SCALE**

DESCRIPTION:

GS-RF100 wireless charging scale is built to handle multiple size cylinders up to 220 lbs.

The custom molded carrying case protects the scale and controller during transport but can also act as the base for the scale.

Easily remove scale from case as well as untethered controller as needed. Controller has no cord to disrupt the accuracy of the scale.

The GS-RF100 is an easy to use and read must have in the HVAC field.

FEATURES:

- Large LCD Display
- Removable Portable Controller
- Backlit display for low light situations
- Custom molded carrying case
- Wireless Technology-No cord to interfere
